

Key Steps to DSCSA Readiness

The Drug Supply Chain Security Act (DSCSA) mandates strict regulations for pharmacies to ensure the safety and integrity of pharmaceutical products throughout the supply chain. Please review and take action following these key steps to ensure future compliance with Morris & Dickson.

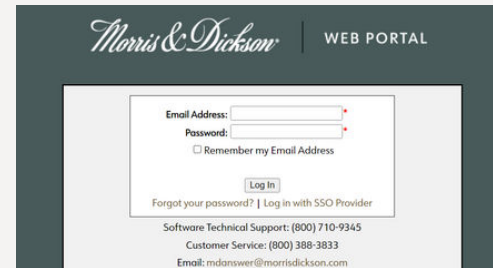

1. OBTAIN GLOBAL LOCATION NUMBERS:

- Obtain Global Location Numbers (GLNs) for all dispensing facilities. Visit: <https://bit.ly/obtainGS1>
- GLNs serve as unique identifiers and are crucial for tracking and tracing products.

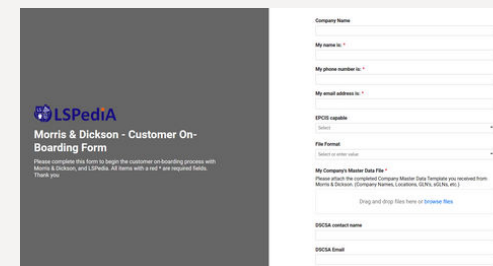

2. PROVIDE GLNS TO MORRIS & DICKSON (M&D):

- Submit GLNs to Morris & Dickson, a vital step in complying with DSCSA regulations.
- GLNs can be submitted through the M&D ordering portal at: mdwebportal.net.

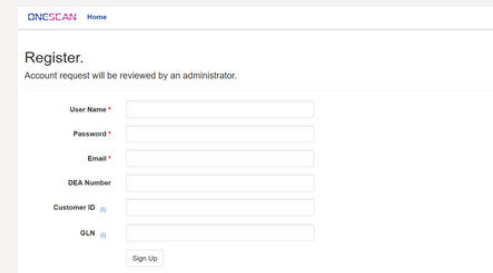

3. DO YOU HAVE OR WANT AN EPCIS DATA SOLUTION PROVIDER?

- If you have a provider, please complete the onboarding form at: <https://bit.ly/traceform>
- If you do not have a provider, consider these options:
 - **Cervey Tracker:** a web-based tool for pharmacy dispensers of all sizes that tracks products per DSCSA guidelines.
 - **LSPedia OneScan:** streamlines the track and trace requirements as part of a dispenser's daily processes.

4. IF YOU DO NOT HAVE A PROVIDER AND RECEIVE A PRODUCT TRACING REQUEST:

- You can access your EPCIS Data via our 3rd party provider LSPedia at: bit.ly/EPCISOneScan

For questions, contact your M&D Representative or email serialization@morrisdickson.com.
